

TEACHING ABOUT WATER

A student competition for those who want to teach, create, and change the world around them.

Are you interested in:

- education of public about water problems?
- sharing your knowledge about water resources protection?
- talking about water in an interesting and interactive way?

Sign up for the competition!

What can you gain?

participation in the **international Czech-German finals**
recognition of your professional or teaching practice

a scholarship
new contacts and collaborations
the opportunity to use the topic in your bachelor's or master's thesis

Be the water that makes things move.
