

EOVation MASTERS

→ USE EO DATA & FIND SOLUTION TO THE GLOBAL CLIMATE CHANGE PROBLEMS!

EOVation Masters is the second local Earth observation technological competition organised by the business incubator ESA BIC Prague within the framework of the EO ClimLab project.

The aim of this almost three-month competition is to select prospective proposals for the use of EO data in services and products focused on adapting society to climate change and supporting their implementation in practice.

Two categories and great prizes

Category A: Business Plan

- 🔧 advance business plans how to commercialize Earth observation based products or services
- 🔧 2 000 €, follow-up with ESA BIC Prague, sponsorship prizes

Category B: Project Idea

- 🔧 proposals with potential for application in practice, whether in the form of a scientific article, which can be based on seminar paper, bachelor's thesis, dissertation or technical study
- 🔧 500 €, the internship at ESA BIC Prague, possibility to present the idea at International Astronautical Congress in Bremen 2018, sponsorship prizes

For join to EOVation Masters is needed to choose one of the challenges published in website <http://www.esa-bic.cz/index.php/eovation/> and then register at the same place. The category B has one special challenge focusing on CubeSat for Brno. The winner of this challenge will be awarded by 10 000 CZK, meeting with cosmonauts on 7th March 2018 in planetarium and by other prizes.

Schedule for EOVation Masters

- 🔧 27 November 2017: Kick-off at the End of Year Conference – officially start of the competition, call for submission of proposals
- 🔧 January 2018: EO Training Workshop – specialised training focused on processing satellite data; Date with mentors – meeting of registered participants with experts
- 🔧 18 February 2018 – Deadline for submitting proposals
- 🔧 By the end of February 2018 – Evaluation of proposals
- 🔧 March 2018 – Announcement of the results during Czech Space Week
